MEMORANDUM FOR: IG(Space) Members

FROM:

[redacted]
Deputy Director for Policy
Planning and Policy Staff

25X1

SUBJECT: National Space Strategy

At tomorrow's IG(Space) meeting, [redacted] will propose that
the attached paragraph be substituted for the implementation paragraph in the
draft distributed on 26 March 1984. [redacted]

Implementation:

 The Senior Interagency Group on Transfer of Strategic Technology (SIG/TT) will oversee departmental actions to protect against unwarranted transfer of US space technology; it will coordinate interagency policy, resolve interagency issues, and review proposals for specific joint US and foreign cooperative space activities prior to USG decision on commitment. As a first step, the SIG/TT will charter an Intelligence Community assessment of Warsaw Pact activities for the acquisition of western space technology, Soviet priorities for space technology acquisition, and the national security implications of actual or potential transfers of western space technologies to the Soviet Union. Members of the Intelligence Community as well as DoD, NASA, the DoC, the DoS, and other appropriate agencies will provide support for this assessment. Using this assessment as a basis, the SIG/TT will conduct an evaluation of the adequacy of existing space technology control mechanisms and develop a plan to protect against future adverse space technology transfer to the Soviet Union and its allies. This plan will be submitted for Presidential approval prior to implementation.
